Biology Revision - PMT

I wrote these notes last year preparing for my GCSE Higher Tier Physics exam. They are concise yet also assume no prior knowledge; perfect for anyone across the whole spectrum of ability. I compiled them with the specification and official textbook side by side and learning just this set of notes I came out with an A*. These are a must have for anyone wanting to succeed.

GCSE Biology is part of our science suite, developed with teachers to inspire and challenge students of all abilities and aspirations. The core content follows a coherent and logical story through biology.

AQA | Science | GCSE | Biology

It is the type of cell division in which a parent nucleus divides to form two daughter nuclei with exactly the same number of chromosomes as that of the parent nucleus. The daughter cells produced are genetically identical to the parent and are clones. This division is important for growth, regeneration and repair.
