Digital cameras have different autofocus modes and will mean different settings depending on your subject. You can select them through your screen camera menu or using a button. The auto-focus I use in 95% of my shots is the AF-S (single-servo autofocus).

Photography Basics: Understanding Your First DSLR Camera

You can shoot all day with a DSLR on a single battery Another reason to still use a DSLR in 2020 is that DSLRs have much longer-lasting batteries compared to mirrorless cameras. And if you're the type of photographer who likes to shoot all day without stopping, or someone who goes into areas without access to electricity for days on end, you're going to struggle with a mirrorless body.
