International Investments in Private Equity: Asset ...

Private equity is subject to boom and bust cycles. Private equity cycles are driven by both macroeconomic conditions and return expectations by investors. In a downturn, inflows to private equity funds fall, which forces fund managers to be highly selective in identifying the most attractive investment opportunities.

A private investment in public equity, often called a PIPE deal, involves the selling of publicly traded common shares or some form of preferred stock or convertible security to private investors. It is an allocation of shares in a public company not through a public offering in a stock exchange. PIPE deals are part of the primary market. In the U.S., a PIPE offering may be registered with the ...
