Lincoln Aviator Owners Manual

For the Smart Grid system to work reliably, PMUs must be calibrated so that their data is consistent, accurate, and credible, and so that models from different manufacturers are inter-operable. NIST, The National Institute of Standards and Technology, felt so strongly about the need for a PMU calibrator that it awarded Fluke a development grant in 2010 to get the project underway.

LiftingSafety Portable Cantilever Deadweight Anchor System ...

By producing a certain pressure (counter pressure) inside the deadweight tester / pressure balance by using e.g. the integrated hand pump, an equilibrium is achieved. In the state of equilibrium the pressure is high enough, that the mass pieces, incl. the free-running piston of the piston-cylinder system, are floating, which will lead to a very accurate pressure at the test port.

Deadweight Tester - DRUCK & TEMPERATUR

Fluke Corporation will receive \$1.4 million in federal stimulus funding, made possible by the American Recovery and Reinvestment Act, to ensure the Smart Grid is reliable and stable, and ready to accept power from renewable resources including wind and solar.
