use dominance, violence, and control to assert their power and superiority. In this article, we will define and explore toxic masculinity (unhealthy masculinity) versus healthy masculinity.

Toxic Masculinity vs. Healthy Masculinity - Green Hill Recovery

Childhood development specialists, child psychologists, and educational experts agree that just a half-hour of recess, especially in green spaces, bolsters test scores, improves academic performance, and reduces the chance of obesity among children (Sacks, 2005). Therefore, it seems likely that the NCLB undermines the academic achievement and physical health of minority and low-income students ...

Childhood Development and Access to Nature - PMC

For adults who have experienced a pile-up of adversity since childhood, the additional weight of current adversity, such as from poverty, racism, or unsafe communities, may overload their ability to provide the stable, responsive relationships their children need and consistently meet the demands of the modern workplace. Therefore, these scientific findings are relevant to policy choices in a ...
