As far as your amp goes, you need to get something thick and full, which is why we're pushing the bass so high. Depending on your amp, you may need to go a little higher or lower than eight, but the principle remains the same. If you use a pedal, make sure the on-board EQ follows the example of your amplifier.

of rock's greatest artists would start wringing unbelievable sounds from the instrument— sounds never envisioned by Fender designers, or anyone else for that matter. Other classics followed—the Jazzmaster® guitar (1958), the Jazz Bass® (1960) the Jaguar® guitar (1962), and more great amps. By the time it was sold to CBS in 1965, Fender had grown from a fledgling California guitar ...

Backmasking is a recording technique in which a message is recorded backward onto a track that is meant to be played forward. It is a deliberate process, whereas a message found through phonetic reversal may be unintentional.. Artists have since used backmasking for artistic, comedic and satiric effect, on both analogue and digital recordings.
